

# INVITATION TO A LIVE WEBCAST

## Utility of dietary therapy including low-fat gastrointestinal diets in chronic enteropathy and the importance of the gastrointestinal microbiome

March 18, 2024, at 7 p.m. (EDT)

4:00 5:00 6:00 7:00 8:00 8:30  
BC (PDT) AB/SK (MDT) MB (CDT) ON/QC (EDT) PEI/NB/NS (ADT) NL (NDT)

During this webcast, **Dr. Allison Collier** will discuss the utility of low-fat diets as well as the impact and importance of the gastrointestinal microbiome in gastrointestinal diseases.

Join us to review the importance of dietary therapy for gastrointestinal diseases including chronic enteropathy and inflammatory bowel disease.

**Allison Collier**  
DVM, DVSc, Dipl. ACVIM (SAIM)

Dr. Allison Collier grew up in Aurora, Ontario. After attending the Ontario Veterinary College (OVC) to obtain her veterinary degree, she completed a rotating internship at Veterinary Specialists and Emergency Service in Rochester, NY. She later returned to the OVC to complete her small animal internal medicine residency. Her research interests include inflammatory bowel disease, gastrointestinal microbiota, and fecal microbiota transplantation.
