

INVITATION TO A LIVE WEBCAST

Does it stay or does it go?
**Knowing when to extract
the tooth and how to
succeed at it.**

**February 8, 2024,
at 7 p.m. (EST)**

4:00 BC (PDT) **5:00** AB/SK (MDT) **6:00** MB (CDT) **7:00** ON/QC (EDT) **8:00** PEI/NB/NS (ADT) **8:30** NL (NDT)

During this webcast, **Dr. Roseline Lorrain** will delve into the intricacies of identifying teeth that require extraction, assessing the difficulty level of an upcoming procedure, and acquiring essential tricks to achieve success. She will also share her knowledge on managing root fractures and retrieving root fragments effectively.

**Join us to enhance your skills and elevate your confidence
in the field of dentistry.**

Roseline Lorrain
DVM, Dipl. AVDC

Dr. Roseline Lorrain has been a veterinarian since 2007. In 2016, she became a board-certified dental specialist from the American Veterinary Dental College. She has been teaching dentistry since the beginning of her residency and throughout her career as a practising dentist. Her mission is to teach veterinarians and animal health technicians to love dentistry. Over the years, Dr. Lorrain has presented many lectures and dentistry wet labs. She practises dentistry and oral surgery oral at the DMVet Centre in Montreal.
