Cancer Coles Notes: Three Common Canine Cancers by Dr. Jennifer Hay, DVM, DACVIM (Onc)

About: This presentation is a brief overview of three common cancers that we see in dogs: lymphoma, mast cell tumours, and soft tissue sarcomas. We will cover typical presentation, recommended diagnostics, available treatments, and prognoses associated with each type of cancer.

When: February 27th 2024, 5pm to 6pm MST

Where: Boreal Veterinary Centre
13940 164 Street NW Edmonton, AB T5V 0C8
