When used according to the therapeutic decision cascade for animal and public safety, compounded medications can provide effective treatments for veterinary patients.

In this presentation, our two speakers will share valuable information regarding the judicious use of compounding. They will also discuss the benefits that these products can provide if approved veterinary drugs are not available or if their format is not appropriate for patients.

Hosted by **Dr. Craig Mosley**, National Medical Director of Specialty Medicine at VCA Canada, this webcast will feature:

- ✓ a 15-minute presentation by **Dr. Danny Joffe**, Vice President of Medical Operations at VCA Canada;
- ✓ a 15-minute presentation by **Sebastian Denison**, Pharmacy Consulting Specialist at PCCA;
- ✓ a 30-minute open **Q & A discussion**.
